

MATERIAL NOW TRACKING APP

Know when your concrete will arrive to the job site.

The **Material Now** tracking app provides real-time information to customers regarding their orders while allowing them to track the GPS location of the trucks working on their projects.

-  See GPS location of Graniterock Ready Mix trucks
-  Monitor status of projects remotely
-  Receive alerts and notifications about orders
-  Look up ticket information anytime from your phone
-  View performance measures for current & past orders
-  Place orders from your phone, tablet, or desktop
-  Compatible with Phone, iPad, Android, and desktop (PC)
Requires iOS 9.0 or later
-  e-Tickets
